City Attorney Vierling – All cities with property coverage through LMCIT receive coverage for crime losses by non-city employees.

City Administrator Mattson – As long as we maintain our sewer system we do not elect to take the coverage for sewer backup

Council Member Nanko/Yeager – Anyone we could look at besides LMCIT for insurance Coverage?

City Administrator Mattson – The LMCIT Insurance trust was created because outside insurance agencies were too expensive for cities to use. The league is the best option.

COMMUNICATIONS:

OLD BUSINESS:

10. To consider approving the “Special Event” application as an Administrative Policy.

Council member Iverson – Asked why Wyoming needs the policy, how many events do we have, if events could be grandfathered in before the application was put in place and what a proper amount of refuse is and does it apply to everyone?

City Administrator Mattson – Explained that it is a communicative tool that we are using in the city between administration, public works, and public safety.

Assistant City Administrator Linwood – It is up to the city council how to determine the use of

fees on the application or if it is purely for communication within the city.

Public Safety Director Hoppe – Used example of block party, it allows us to have communication between departments and residents for events.

Shawn Haines – Stomp Out Suicide – Explained that their event has insurance and they have always worked well with city in the past organizing the event.

Public Director Hoppe – If we need to bring in additional officers there is a cost to the city. In regards to stomp out suicide we use reserve officers.

Public Superintendent Windingstad – For this event we bring in Brings Porta Potties, hook up electricity, and provide access to water for the event and that takes 2 public works staff for setup

Mayor Peterson – Does not feel that the application is much different than what the city has been doing. Applicants can sit down with the staff if they have questions.

Council Member Nanko/Yeager – Asked about grandfathering events in place and setting the policy in place towards the end of the year.

Attorney Vierling – Not a grandfathering question, more of a question if the council wants to charge fees and most cities will give events breaks if they ask the council during open forum.

Council Member Iverson – Felt the application leaves questions to applicants about actual fees that may be associated with the event.

A MOTION WAS MADE BY COUNCILMEMBER PETERSON SECONDED BY COUNCILMEMBER ZERWAS, TO APPROVE THE “SPECIAL EVENT” APPLICATION AS AN ADMINISTRATIVE POLICY.

Voting Aye: Luger, Peterson, and J. Zerwas

11. To consider **Resolution 15-07-39** a resolution approving variance from section 40-460, (4), Maximum total lot coverage to allow an impervious surface area of 87% instead of the maximum allowed of 50%; and to allow a building coverage area of 30.5% instead of the maximum allowed of 20% at 5190 260th Street

Building Official Weck – We have had this item at Planning Commission meetings and have had engineers review, the conditions are the same and the variance is also approved.

Council Member Nanko/Yeager – Requested information has been received by staff? These items do not take effect until the development agreement has been approved, does this item need to be tabled until the development agreement is approved? Also asked about substantial compliance and what it means

Building Official Weck – All requested information has been received. The substantial compliance is in many of these agreements, it simply allows about a 10% deviation if we need to readjust some items.

City Engineer Erichson – We have identified a guidance document and the applicant has increased the impervious coverage on the site. They need to meet pre-development conditions. We have reviewed engineer models and we have increased the pond size.

Council Member Nanko/Yeager – Should requirements be changed for variances since there are so many for impervious spaces?

Building Official Weck We could revisit them and we are looking at updating the comp plan and zoning ordinance. The Planning Commission could review impervious amounts.

Council Member Iverson – How long will it take to issue the permit once they have this approval?

Building Official Weck– It should be fairly quick – There are one or two items left that we have spoken with Durand Builders and Mr. Hallberg about and some documents need to be signed as well.

A MOTION WAS MADE BY COUNCILMEMBER ZERWAS SECONDED BY COUNCILMEMBER IVERSON TO CONSIDER APPROVING RESOLUTION NO.: 15-06-39 A RESOLUTION APPROVING VARIANCE FROM SECTION 40-460, (4), MAXIMUM TOTAL LOT COVERAGE TO ALLOW AN IMPERVIOUS SURFACE AREA OF 87% INSTEAD OF THE MAXIMUM ALLOWED OF 50%; AND TO ALLOW A BUILDING COVERAGE AREA OF 30.5% INSTEAD OF THE MAXIMUM ALLOWED OF 20% AT 5190 260TH STREET

Council Member Nanko/Yeager – Suggested that the item be tabled since the council has not had time to review the document since it was just completed today.

City Attorney Vierling – The Development agreement and Maintenance agreement in place are the same as the ones that the council have approved in the past. There is a surety bond portion for this security. You have provisions in the development agreement and are the same as any other. The storm water maintenance is the same as you also do. There is a document for dedication of utility easements. We support the agreement, staff supports it, and engineering supports it.

City Engineer Erichson – There are items in the maintenance agreement for private

developments that have been identified. One other item for this development are the WAC/SAC Fees, and those have been paid in full.

Council Member Luger – How do the requirements work for reporting back to the city? Is the agreement beneficial and protect the city?

City Engineer Erichson – Annually on inspections

City Attorney Vierling – We believe the agreement is in the best interest of the city. The developer will ask for money back on letter of credit and is a good way to check on the progress of the project.

Council Member Zerwas – Asked who found the error?

Building Official Weck – Polaris contacted the City

Council Member Nanko/Yeager – Questioned why did we not charge these immediately, why until the 3rd Quarter and why they were billed incorrectly?

Building Official Weck - It was with the old township parcels we had to go through and figure out the rates for all the old township rates, it took that time in between. In regards to the incorrect billing it was an oversight when these were setup with the new surface water fee schedule.

Council Member Iverson – Questioned if we have any other incorrect billings.

Building Official Weck – This is the only one that appears to be incorrect

A MOTION WAS MADE BY COUNCILMEMBER NANKO/YEAGER SECONDED BY COUNCILMEMBER ZERWASTO APPROVE A PARTIAL REFUND OF \$22,946.00 IN A LUMP SUM OR CREDIT TO THEIR SURFACE WATER BILL FROM THE CITY OF WYOMING SURFACE WATER MANAGEMENT UTILITY TO POLARIS INDUSTRIES INC.

Council Member Iverson – Asked about if employee's steps are at top pay. She referenced pay equity and Police Officers since they have more dangerous duties day to day. Asked between the differentiation between public and private, is this the status quo. Would like to see the increases tied to job performance.

Administrator Mattson – It does take into consideration those job conditions, what a police officer's job conditions are factored in. Another factor that may be more important would be merit pay, we might discuss merit, but they are not part of the base salaries.

Council Member Nanko/Yeager – Questioned if the City Administrator and Police Chief negotiated the contract for the Police Department Union LELS
