REQUIREMENTS FOR SOLAR PERMITS

ALL FORMS MUST BE COMPLETE • APPLICATIONS WILL NOT BE PROCESSED IF NOT COMPLETE

Supplemental Documents Required With Application:

1. Completed Building permit application with all of the subcontractors listed
2. One set of building and engineering plans signed by the appropriate design professionals. Plans must show the footing design, wall design (including insulation and interior wall sheathing if planned), roof design, all structural members wall opening size and locations.
3. One copy of a Certificate of Survey, showing the location of the solar, house, driveway, roads, septic system & well (if applicable) and any other buildings with dimensions and setbacks.

If all requirements of the Minnesota State Building Code and the City of Wyoming's Ordinances have been met, a building permit will be issued.

Inspection Requirements:

1. Minimum 24-hour notice for inspections.
2. The building permit inspection card, approved plans, site plan and the roof truss specifications must be on the jobsite at all times. If the building permit inspection card is not posted, the requested inspection will not be done.
3. Address must be furnished when requesting an inspection
4. **Your building permit does not include the inspection of electrical work.** A separate Request for Electrical Inspection form with the required fees must be submitted to the Board of Electricity at or before commencement of any electrical installation that is required by law to be inspected. Electrical inspections in the City of Wyoming are done by Mark Thoma. He can be reached at 320-309-9483, 7:00 – 8:30 am.
5. The job is not complete, and the building cannot be occupied, until all of the required inspections are approved.
